

FALL GARLIC PLANTING

Field Day at Downing Park Urban Farm

Saturday, November 12th Noon - 2pm

207 Carpenter Ave, Newburgh NY 12550

GARLIC, THE EDIBLE BULB

“Without garlic I simply would not care to live.” – Louis Diat, French Chef & Writer

Garlic has been a miracle plant since Ancient Egypt, not only used for culinary preparation but also to aid health and cure illness. Garlic is often overlooked plant for home gardeners, but with a little preparation and care in planting at the right time, growing and harvesting, it is truly a rewarding crop. Come learn how to plant garlic in your own backyard. Practice your planting skills and help Marcel sow garlic at the Farm. Take a free bulb of garlic home to plant in your own garden. We'll also have donuts and cider to warm up the festivities. Come and celebrate fall with our Garlic Planting!

The event is free. To register or for more information go to
info@downingparkurbanfarm.org // www.downingparkurbanfarm.org
