Dear Ian and Cindy, I'm sorry to have to give you one more chore, BUT, I must in order to assure me that these concerns are being passed on for further evaluation and change.
Respectfully, Yours Barbara Smith

Concerns for Ward 4

1-Low Density Residential- Cooperative Housing

Until cooperative housing is defined, we should no encourage more buildings being taken over by the college and removed from our tax base.

2 Neighborhood Commercial overlay in Res Med Density designated as Neighborhood commercial

If this is allowed to go into effect it will no longer be Med Density it will fast convert to high Density which will spill over to the low density area. To retain the quality of life in this neighborhood I recommend this idea be deleted.

BJ Smith

Subject: Fwd: Newburgh Draft Zoning Code Update

Where is ward4? Or is it going stay R1? No apartments in our ward and there is no room for additional parking.

Thanks
