4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Please see Attached MCM 1 Page 4A of 4

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The number of participants and interests for more stormwater management programs and best management practices have increased each year. The City will continue to provide and increase the number as well as provide more public education, outreach events, and project specific assistance as much as financial resources and staff time allow.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Please see Attached MCM 1 Page 4A of 4

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Our measurable goal is to reach as many citizens on the importance of stormwater and their role in helping to keep the waterways clean and to reduce the amount of runoffs. The City provides public education and outreach through direct mailing of pamphlets & quarterly water quality reports, targeted & location or event specific outdoor signs, kiosks, storm drain markers, posters, press releases, workshops, water conservation day, international waterfront festivals, Earth Day & school programs as well as meetings & projects coordinated by the Youth Bureau VISTA, Downing Park commission, Shade Tree Commission, Orange County Soil & Water, & Quassaick Creek Watershed Coalition to reach a broad audience of different age groups and interests related to stormwater management & water quality issues. Best Management Practices, Federal, State & local guidelines, and any public-private partnership or funding opportunities are informed and enforced by the building inspectors, planning board members, and the City Engineer.

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Public education and outreach have been and will continue to be important on-going activities. The City will look for new opportunities to educate the public about stormwater management and water resources protection. For example, summer interns are scheduled to stencil more storm drain makers and to help raise stormwater pollution prevention awareness. The City Engineer, City Planner and Planning Board members will continue to encourage internal staff and private contractors and landscapers to implement more best management practices whenever possible.

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will continue to coordinate and provide opportunities for public involvement and participation. Emails of interested participants have been collected through past events and workshops. Upcoming events will continued to be announced through press releases, council meetings, the City's website, flyers, and email list-serves.

A.. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The City established and implemented its Stormwater Management Program Plan beginning in 2003 after receipt of acknowledgement of the Notice of Intent. Copies and additional information on nonpoint source pollution legislation and regulations were distributed to all department heads and staff that had responsibilities under the SWMPP as well as accessible to the public for their comments through the City Clerk's Office, Newburgh Free Library and the City's website. The City Manager has been designated as the official contact point for information pertaining to the SWMMP. Assistance to citizens, residents and builders has been provided by the Planning Board members, City Engineer, City Planner, building inspectors and commissions, environmental groups, and partners such as Orange County Soil & Water and Orange County Water Authority.

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Please see Attached: MCM 3 Page 4A of 4.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Since 2005, the numbers of routine inspections, cleaning and early pollutant detections & preventions have increased while the number of incidences where poor condition of the storm system reported has reduced. Streets are swept and catch basins are kept clean. Issues identified are addressed and recovered within 48-hours.

C. How many times was this observation measured or evaluated in this reporting period?

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will continue its efforts in storm system cleaning, illicit discharge detection and prevention, mapping maintenance and local law enforcement.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To document the City's stormwater system, implement an illicit discharge detection & elimination plan, and to enact a local stormwater ordinance that foster all of the goals and intended results covered in the SWMPP. The City's digital storm and sewer system maps and data were completed in early 2007. An automated illicit discharge monitoring and tracking system is operated by City's Dept. of Public Works staff and contract operators, Severn Trent Services, at the City's Wastewater Treatment Plant. Dye testing for the location of illicit connections to the City's storm and sewer collection system are performed and evaluated each year. Responsible staff receive periodic training and are required to maintain their certifications. The City's stormwater ordinance (Local Law #-2007) was adopted in 2007.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Please see Attached MCM 4 Page 3A of 3

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

100% of SWPPs were reviewed, commented, and implemented with modifications reflecting NYS DEC standards. City Engineers, City Planner, Planning Board members and building inspectors receive periodic trainings on construction site stormwater runoff control.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Please see Attached MCM 4 Page 3A of 3

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To implement proposed site plan review process and inspections to ensure construction site stormwater runoff control compliance at State and local level. The Planning Board, City Engineer, & City Planner review, modify and approve proposed construction site plans, stormwater management plans and soil erosion & sediment control plans and provide assistance and encourage best management practices whenever possible. Building officers issue proper permits & follow up with periodic inspections.

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will continue to adhere to NYS DEC stormwater rules and regulations as well as to encourage best management practices for all projects in the City. Mount Saint Mary's College, Robinson Ave road construction, and Habitat for Humanity new housing projects will continue to set examples for BMPs in the City. Through the American Recovery & Reinvestment Act funds from NYS DEC, Hudson Valley Regional Council is currently working with the City to develop a green infrastructure planning program to identify and implement BMP's/Low Impact Development design in the Hudson Valley communities.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To ensure post construction stormwater management coordinated through the Codes Compliance Department with assistance from the City Engineer.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Routine inspections for post construction stormwater management are coordinated through private project site managers, City Engineer, building inspectors. The City's Planning Board in the past has offered assistance to homeowner associations within subdivisions to established agreements to provide specific funding mechanism for long term maintenance of stormwater management facilities.

C. How many times was this observation measured or evaluated in this reporting period?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

To sweep parking lots and roads before they are repaved, remove and properly dispose of animal carcasses within the City right of way, clean catch basins slated for repair, rinse bridges free of sediment from typical winter maintenance, perform tree clearing, ditching, and shoulder cutting, and utilize environmental sound petroleum and salt storages.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The City continuously monitors ice control activities in order to reduce the amount of materials deposited while providing safe passage for vehicular traffic. City staff receive periodic training regarding safe storage of products and chemicals. Routine maintenance of stormwater collection system, street, municipal building, parks and open space are performed to protect and improve water quality in the City.

C. How many times was this observation measured or evaluated in this reporting period?

--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Department of Public Works will continue to adhere to pollution prevention & good housekeeping procedures and rules. Staff will continue to be trained to increase awareness periodically.
